

Dr. Kanokpat Chanvaivit

Technical Director

Bouygues-Thai, Ltd.

k.chanvaivit@bouygues-construction.com

Dr. Kanokpat Chanvaivit is currently working as a **Technical Director** for **Bouygues - Thai Ltd**, a subsidiary of **Bouygues-Construction** group, which is one of the world's largest construction firms. He is responsible for the Technical and Purchasing Departments.

Dr. Kanokpat Chanvaivit graduated in Ph.D. program in Structural Engineering from Chulalongkorn University, Bangkok, Thailand. One of his major project references is **MahaNakhon Tower, Thailand's tallest tower** at its time, standing at 314 meters. In this project, he successfully managed the design consultants to achieve the design conforming to Thai codes and international standards within the budget and time schedule.

He strictly follows **Bouygues-Construction's policies** of **Ethics & Compliance, Sustainable Construction & Low Carbon Footprint**. He sincerely respects the **Values of the People**. He is willingly sharing his experiences and technical lectures at universities from time to time when available.
